

JOHN THOMSON

PRODUCT DESIGNER
WWW.JOHNTHOMSONDESIGN.COM

As a design student at the University of Dundee I have a lot of experience working within a creative environment as both part of a team and as an individual. Collaboration with other disciplines is a key aspect of my course and I am well practiced in working along side people from a wide range of backgrounds. My course allows me to diversify greatly and I thoroughly enjoy new experiences and meeting new people.

With a focus on design, technology and the user experience, my work allows me to find creative solutions to any problem. I am extremely excited to continue my creative career and look forward to going where ever it takes me.

Qualifications, Awards & Publications

DJCAD, University of Dundee - 2010 - 2014

BSc Product Design 2.1

Graduate Skills Award

Shake Up Your Wake Up & Go Get 'EM (2013)

This paper discusses my experience of co-design, in the context of my second year module, and relates it to the empowerment of students in higher education. I recently presented this paper at the 10th Enhancement Themes Conference at the Crowne Plaza, Glasgow.

Skills

Adobe Creative Suite

Arduino

AutoCAD

SolidWorks

Prototyping

Circuit Wiring

Crafting

Technical Drawing

Research & Ideation

Experience

Waiter/Bartender, City Walls, Stirling - September 2014 - present

Schuh Ltd, Stirling Thistles Centre - June, 2011 - Sept 2012

USC, Stirling Thistles Centre - May 2013 - present

My experience working in retail and catering has taught me how best to interact with customers. I can effectively identify their needs and apply my expertise to provide the right service.

I believe the skills I have gained are easily transferable to the creative industries and I am very eager to gain experience in this field to further my development.
